

ROOSEVELT OFF FOR GREAT HUNT

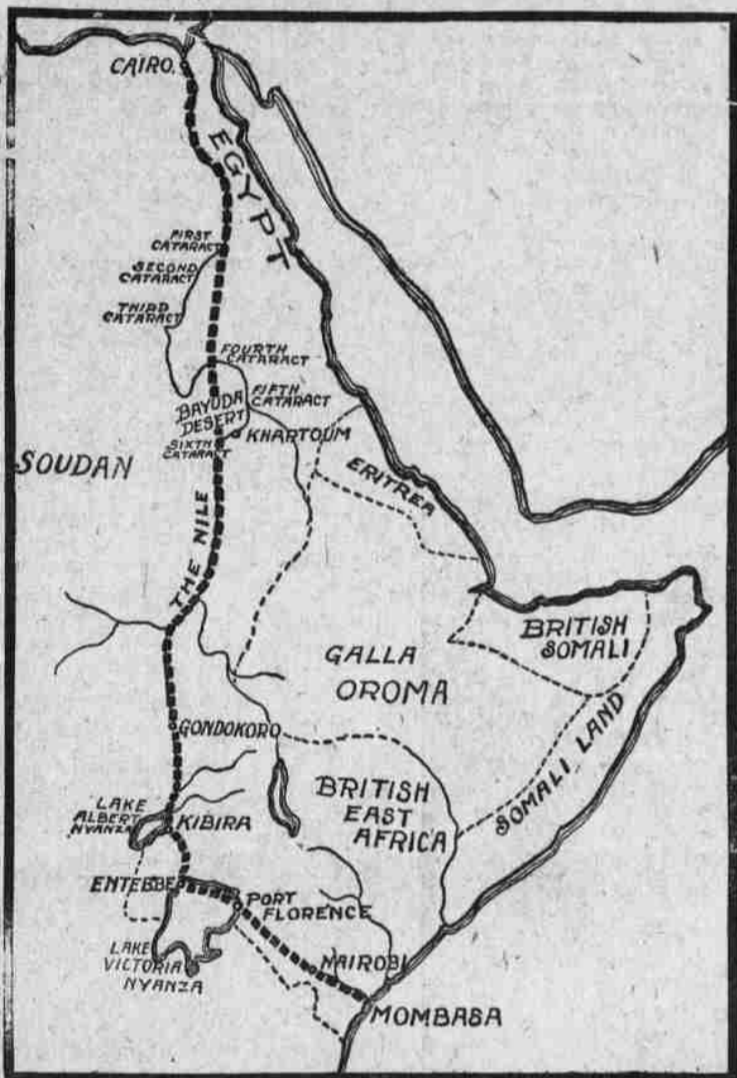

EX-PRESIDENT SAILS AWAY TO DARK CONTINENT.

TO BE IN AFRICA A YEAR

Then He Will Travel and Speak in Europe—Three Skilled Naturalists and His Son Kermit Accompany Him.

New York.—Theodore Roosevelt, ex-president of the United States, sailed out of New York harbor Tuesday on the steamer Hamburg of the Hamburg-American line on the way to his much-heralded hunting trip in British East Africa.

On the dock was a large assemblage of Mr. Roosevelt's friends, who had gathered to bid him God-speed, and who cheered him as he stood at the rail of the steamer waving his hand and smiling with delight. Beside him stood the three men selected from hundreds of applicants to accompany him and assist him in collecting the specimens of African fauna which he hopes to send back for the enrichment of the Smithsonian institution. These fortunate individuals were Maj. Edgar A. Mearns, J. Loring Alden and Edmund Heller. They comprise the Smithsonian's expedition. The fifth member of the little party, and not to be considered of least importance, was

ROUTE OF THE ROOSEVELT PARTY IN AFRICA.

the ex-president's second son, Kermit, who will be the official photographer of the expedition and, next to his father, the chief hunter.

To Mombasa Via Naples.

Mr. Roosevelt will go via Gibraltar to Naples, where he will board a steamer of the German East African line for Kilindini harbor, the port of Mombasa. At the latter place the party will be joined by R. J. Cunningham, an Englishman of long experience in Africa, who has been engaged as general manager and guide.

The party will spend a short time in Mombasa and then proceed by train on the Uganda railway to Nairobi, headquarters of the administration of British East Africa Protectorate, a city of 15,514 inhabitants, of whom 579 are Europeans.

On MacMillan's Ranch.

William Northrup MacMillan, formerly of St. Louis, owns a large estate near Nairobi and his big, luxurious farmhouse will be headquarters for about six months while the hunters and scientists make trips of varying length in all directions. It is in this section that Mr. Roosevelt hopes to obtain most of his specimens, for it abounds with animals of all kinds. The smaller mammals will be trapped.

The supplies of the party are packed in tin-lined boxes. These boxes when they have been emptied will be used as packing cases for the various specimens. Many valuable natural history specimens have been spoiled by ants and other insects, it has been found from experience on other expeditions, and it is to guard against this that the tin-lined boxes are being taken along.

Caring for Specimens.

When the specimens have been prepared they will be carefully packed in the boxes and shipped to Nairobi, where they will be forwarded to the United States. One of the taxidermists will always be with Mr. Roosevelt, and as soon as any big game is shot by him it will be skinned and prepared on the spot.

Mr. Roosevelt will be greatly disappointed if he fails to kill several specimens of the white rhinoceros. This animal is the same as the square-mouthed rhinoceros and is the nearest

Cat Fosters Rabbits.

At Woolbrook, Sirmouth, England, a tame rabbit had six young ones. The mother was killed accidentally. The house cat has since fostered and fondled them, and is bringing them up as if they were her own kittens.

Misappropriation.

For it would have been better that man should have been born dumb, void of all reason, rather than that he should employ the gifts of Providence to the destruction of his neighbor.—Quintilian.

living ally to the type of the extinct Tichorine or woolly rhinoceros which lived in England at the close of the Glacial period.

Journey Across Uganda.

Leaving Nairobi in October, the party will proceed by the Uganda railway to Port Florence, on the shores of Lake Victoria Nyanza, where a short stop will be made; then a steamer will be taken to Entebbe, 150 miles away. There a caravan will be formed and the journey across Uganda to the Nile will be begun. It is expected that the White Nile will be reached about the first of the year 1910. Lake Albert Nyanza will be touched at Kibira.

In a general way the course of the Nile will be followed to Gondokoro, and thence to Khartoum. At this city Mr. Roosevelt and Kermit will be joined by Mrs. Roosevelt and they will continue down the Nile slowly to Cairo, visiting many points of interest on the way.

To Speak in European Capitals.

Plans for the remainder of the expedition's two years' tour have not been decided upon definitely, but the time will be spent in Europe, and several matters of importance have been announced. He will visit Berlin at the invitation of Emperor William and while there will deliver an address upon the one hundredth anniversary of the founding of the University of Berlin.

From Germany he will go to France and deliver an address at the Sorbonne. It has not been learned how long Mr. Roosevelt intends to stay in Berlin and Paris. After his visit in France, Mr. Roosevelt will go to England, where a reception of great warmth undoubtedly will be accorded

TARIFF MESSAGE URGES QUICK WORK

TAFT'S RECOMMENDATIONS TO CONGRESS NOTABLE FOR ITS BREVITY.

MONEY NEEDED FOR DEFICIT

Declares Laws Enacted Twelve Years Ago Do Not Meet Conditions Obtaining at the Present Time.

Washington, D. C.—President Taft, at noon Tuesday told congress in 338 words to revise the tariff. The special message is notable for its brevity, and surprised congress, inasmuch as White House statements had been made to the effect that the chief executive was "still busy upon the tariff message."

The president urges speedy revision of the tariff schedules, declaring the laws enacted 12 years ago do not meet conditions existing today. More revenue to meet the authorized expenditures of the government is asked, and the president recommends the schedules be so arranged as to make ample provision to meet the deficit.

Urges Quick Action.

The message follows:

"To the Senate and House of Representatives:

"I have convened the congress in this extra session in order to enable it to give immediate consideration to the revision of the Dingley tariff act. Conditions affecting production, manufacture and business generally have so changed in the last twelve years as to require a readjustment and revision of the import duties imposed by that act.

"More than this, the present tariff act, with the other sources of government revenue, does not furnish income enough to pay the authorized expenditures. By July 1 next, the excess of expenses over receipts for the current fiscal year will equal \$100,000,000.

Pledged to Revision.

"The successful party in the late election is pledged to a revision of the tariff. The country and the business community especially, expect it. The prospects of a change in the rates of import duties, always causes a suspension or halt in business because of the uncertainty as to the changes to be made and their effect.

"It is therefore of the highest importance that the new bill should be agreed upon and passed with as much speed as possible consistent with its due and thorough consideration. For these reasons, I have deemed the present to be an extraordinary occasion within the meaning of the constitution, justifying and requiring the calling of an extra session.

"In my inaugural address, I stated in a summary way, the principles upon which, in my judgment, the revision of the tariff should proceed and indicated at least one new source of revenue that might be properly resorted to in order to avoid a future deficit. It is not necessary for us to repeat what I then said.

"I venture to suggest that the vital business interests of the country require that the attention of the congress in this session be chiefly devoted to the consideration of the new tariff bill and that the less time given to other subjects of legislation in this session, the better for the country.

"WILLIAM H. TAFT.

"The White House, March 16, 1909."

The new means of raising revenue to which the president refers as having been mentioned in his inaugural address is a graduated inheritance tax.

ELECTROCUTE MURDERER

Salvatore Randazzo Before Going to Death Admits Guilt of Murdering His Cousin.

Auburn, New York.—Admitting his guilt with his last breath a prayer for mercy, Salvatore Randazzo was electrocuted at Auburn prison.

Just before he started for the fatal chair he gave Father Robert, in attendance on him, four letters, with the request that he mail them to his father, mother and two sisters, who escaped the earthquake and now live in Borgetto, Sicily.

Randazzo murdered his cousin, Pietro Randazzo, in Cattaraugus county, in January, 1908.

Big Oklahoma Horse for Taft.

Oklahoma City, Ok.—A big Oklahoma horse, purchased for the army, is being trained at Fort Reno, Okla., for President Taft. The animal will be shipped to Washington in a few days.

Zepelin's Airship Triumphs.

Friedrichshafen.—Count von Zepelin's new model airship with the inventor and four other men on board, made a successful descent in a field on the shore of the Lake of Constance today. It has been asserted that the count could not land on the ground without an especially built platform, but this has now been disproved. The airship came easily to the earth, and after remaining for some time reascended and returned to the balloon shed on the lake.

Dorando Wins From Hayes.

New York, N. Y.—Dorando Pietri again defeated Johnny Hayes in their Marathon match at Madison Square Garden. He twice lapped Hayes by a sensational sprint. And to show what he could do, he sprinted the entire distance and wound up the last quarter mile like a 100-yard sprinter. Up to the sixteenth and seventeenth miles the race was an even one, but after that Dorando pulled away. There was no excuse for Hayes' defeat.

PREVENTING PAINT TROUBLES.

It's easy enough to recognize the symptoms of poor paint, after it has been on awhile—after its inherent tendency to crack and peel and scale and blister, etc., has developed into trouble. You know these paint "diseases" usually indicate adulteration or substitution in the paint materials. And you know the only remedy is re-painting.

A little knowledge of paint and painting requirements, and how to make sure of the purity and quality of materials, would prevent all trouble, and save the big extra expense of re-painting; just as a proper knowledge of simple health-laws, and observance of them, prevents sickness.

A complete painting guide, including a book of color schemes, specifications for all kinds of painting work, and an instrument for detecting adulteration in paint materials, with directions for using it, can be had free by writing National Lead Co., 1902 Trinity Bldg., New York, and asking for Houseowner's Painting Outfit No. 49.

A very simple guide in the purchase of white lead (the only sure and safe paint material) is the famous "Dutch Boy Painter" trademark; that trademark is an absolute guarantee of purity and quality.

DOUBTED TALES OF SCIENTIST.

Scotsman's Summing Up of Character of Man of Learning.

Sir Archibald Geikie, the distinguished geologist, who will probably succeed Lord Rayleigh as president of the Royal society, tells a good story in his capital book of "Scottish Reminiscences."

"I was quite sure you had been in our neighborhood," a friend said to Sir Archibald. "I met the old farmer of G—, who had a strange tale to tell me."

"Dad, Mr. Calthart," he began, "I ran across the queerest body the other day. As I was coming by the head of the cleugh I thought I heard a wheen tinkers quarrellin', but when I looked down there was a wee stoat man. Whiles he was chappin' the rocks w' a hammer, whiles he was writin' in a book, whiles fetchin' with the thorns and miscelin' them for a' that was bad. When he came up frae the burn, him and me had a large confab. Dad! he tellt me a' about the stanes, and hoo they showed that Scotland was ance like Greenland, smooored in ice. A very entertainin' body, Mr. Calthart, but—an awful, awful leear."—TIT-BITS.

COVERED WITH HIVES.

Child a Mass of Dreadful Sores, Itching, Irritating Humor for 2 Months—Little Sufferer in Terrible Plight.

Disease Cured by Cuticura.

"My six year old daughter had the dreadful disease called hives for two months. She became affected by playing with children who had it. By scratching she caused large sores which were irritating. Her body was a complete cover but it was worse on her arms and back. We employed a physician who left medicine but it did not help her and I tried several remedies but without avail. Seeing the Cuticura Remedies advertised, I thought I would try them. I gave her a hot bath daily with Cuticura Soap and anointed her body with Cuticura Ointment. The first treatment relieved the itching and in a short time the disease disappeared. Mrs. George L. Fridhoff, Warren, Mich., June 30 and July 13, 1909."

Potter Drug & Chem. Corp., Sole Props., Boston.

And It Was Overruled.

Judge Hoar and Gen. Butler were opponents in a case of a new tariff. Gen. Butler quoted: "Eye for eye, skin for skin, tooth for tooth, yea, all that a man hath, will be given for his life." To which Judge Hoar replied: "Yes, the devil quoted that once before in a motion for a new trial."

Important to Mothers.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product, has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed, because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States, in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

TURN ABOUT FAIR PLAY. INADEQUATE.

But Somehow Mrs. Newlywed Couldn't See the Point.

A young friend of mine, a jolly, convivial sort of a chap, got married recently, and at the end of the first week, upon receiving his salary of \$20, he went home, gave his wife \$18, and kept two for himself.

Of course, she thought that was lovely, but to her astonishment at the end of the second week he handed her only two dollars, keeping \$20 for himself.

"Now, see here, John," she said, indignantly, "how do you suppose I am going to manage on two dollars a week?"

"I don't know, I am sure, my dear," he answered, sweetly. "I had a terrible time of it last week, myself."

Gee, but wasn't he the mean old thing!—Seattle Argus.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by E. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by E. J. Cheney & Co., Testimonials free. Sold by Druggists Price, 75c. per bottle. Take Hall's Family Pills for constipation.
